Plan of the Campaign-Object of the

In our Friday's issue we adverted to the discord and confusion that reigned in the two grand assemblages of Know-Nothings which came off at Philadelphia on the 18th and 221 ultimo, and to the finale of their deliberations. In any other body than a Know-Nothing National Convention, such freaks and inconsistencies as were there witnessed such sudden and facile political transmutations would be astonishing and alt. gether unaccountathis: that the anti-clavery men should have the to stand upon it; and it remains to be seen which has got the better of the hargain. One thirg is m secertain-if the Know-Nothir goarty had any chance before to lead the of position to the Democracy, it has noue now. A large majority of the Order in the North will not be entirfied with out both a platform and candidates to suit them The majority of the secoding delegates from the North met after the nomination was made, and recommended the assembig of a Nor.h American Convention at New York next June, to nominate a fresidential ticke, while an inflaential pertion of them avowed, at once, their determination is ad late and act with the Black Republicans-the bone and sinew, the head and tront, of the opposition-between whom and the Domocia'y the great im sending bathe is to de toug it, on the recuit o W .. ob depends the Mantenance of the Constillationair glood the South and the saivation of the F.d.rai Cui n

The editor of the Cincinnati Gazette concedes the advantage in the bargain to the Southern deiegues, notwithstanding the twilth section was struck from under them. Speaking of the un-Saltationess of the ticket for the North, he says: The p atform is of no importance, compared with the good, its candidates are the important thing to ber.

this whole business at Pailadelphia looks very like a farce or sham. Clearly, Know-Nothing.sm as it now presents theelf under the conduct of its leaders North and South, is but an ally and coworker with the great anti-playery faction in the Free States, whatever may be the views and feeling of the mass of the Order in the Slave States

Black Republican organization of the North; but interests. by no possibility can this be done without the aid and op-operation of the so-called American party. It is now evident that three tickets will be before the people, viz: the Democratic, the Black Republican, and the American or Know-Nothing. That either of the two last named can succeed in the Electoral Cellege, no one is so ignorant and stultified as to believe for one mament. What, then, is the calculation on the part of the alies? It is to throw the election of President and Vice Presi dent into Congress, where the candidate of the Black Reputlicans for Speaker has just carried off the paim against the combined vote of the Demo crats and Southern Know-Nothings. And this brings as to speak of what Is now, obviously and avowedly, the plan of the allied parties in the Presidential campaign of 1856. Here it is. We quote from a leading editorial in the Cincinnati Gazette, of the 27th ult., a preminent and most inflaential paper, the editor a "Republican Ameri-

COLLISION BETWEEN THE Henry Lewis and E. Howard! reached as in the Baltimore papers. We extract The Lewis a Total Wreck!

MANY LIVES LOST !

Yesterday morning intelligence of a terrible teamboat disaster reached our city. We took ing as far so some pains to gather, from all sonress within our reach, as many particulars as possible. The following are the facts, as far as we could obtain the Constitution of the Danubian Principalities

Oa Saturday morning, about four o'clock, the steamers Henry Lewis, bound for New Ocleans, The twenty-one articles, embodying the rights and and the E. Howard, npward bound, came in colli river, some ten miles below Hawesville. The Henry Lewis was loaded down to the guards, and the special transfer of the special treaty of peace. The following are said, by telegraph, to be the needs of this Thrkish Reform Bill, and all have been sanctioned by the Splace. was covered with freight upon the hurricane deck. When the boats struck, the cabin of the Lewis, from the weight above, fell in and sottled down upon the boiler deck. It is supposed that most of the firemen, deck hands, and persons on the lower deck, perished. We are told that when the boat left Louisville there were twenty-two cabin passengers on board. How many of them escaped is unknown. It is generally believed that some ol them, on the side of the boat which carcened over, must have been drowned in their borths, while others escaped from the cabin.

We learn that the second steward and second ocok are among the drowned.

One man whose life was saved, had his foot bro ken, and was otherwise badly wonnded by the crush of the cabin.

The books of the boat and all are snnk togeth er-hence, the names of passengers are not known. The officers-at least the captain and cierk-are safe.

We conversed with a young man, who was in the cabin at the time of the collision. He says he staid on board until he saw that the boat was taking fire, when he jumped overboard, hoping a acst to swim to the E. Howard, but afterward: feared that the waves from that boat would drown aim, turned about and swam with the current no tit he got hold of a tarrel, and after floating half a mile was picked up by some men in a skiff. H says several others swam from the cabin-how they fared, whether they escaped to shore or were drowned, he could not tell.

Accounts differ widely as to the number supp) ed to be lost. Some estimate the number not to exceed from fifteen to twenty, while others ins at that thirty or forty perished. We shall hope t, learn the particulars in a few days.

The Henry Lewis is reported a total wreck, and has settled down to her hurricane roof as it lies in the water. Much freight floated off, and the Biltimore aid Wm. Garvin report having met bales and barrels for several miles below.

The E. Howard is scarcely damaged at all. She now lies at Portland, and wo did not observe any lujury whatever, except that the jackstaff was snocked down.

Where the censure lies for this collision in a oroad full river, the proper authorities must deternine. It is a terrible calamlty, and the very nncertainty as to the fate of the unknown passengers ou board makes it still more heart-ronding.

DROWNED—A man fell overboard from the steamer Kenton, on her upward trip last night, when opposite the apper end of this city. The boat was stopped, and the yawl sent out—but he sunk before the yawl could reach him. The night was very dark. We did not learn his name, or whether he was a passenger or a boat-hand.

To those who are subject to a sick headache, one bothe will always cure it to give great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound, it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be assumed—they always disappear in from four days to a week. There is never a bad resulf from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. From Judge Asher Graham, (Formerly a member of the Bench of the Court of Appeals).

I have seen some of Dr. Price's patients. They speared to have been very much diseased, almost beyond all hopes of recovery. They now seem to be perfectly relieved.

ASHER GRAHAM. Bowling Green, Ky.

From Judge Wm. V. Loving, (The American Candidate for Governor). I have seen several of Dr. Price's patients; amongs others, Mr. S. H. Dickerson, of Monroe co. At the time I saw him he was discussed from head to foot. The left side of his face and neck was greatly enlarged and swolen. All of the left side at his neck preas, and right shoulder were a mass of fifthy discussed from the process and running sores. As he would work his arms, the air would escape from deep ulcers under his collar nones, causing fifthy matter and blood to bubble out. The use of the process had proved that some of these ulcers with nones. by mater and month to be above that a few set of the both and proved that some of these ulors extended to the hollow of the body. It were a work of supererogation to praise abook of Mons. Lacour's writing. The volume before us is remarkable for its completeness and the exact practical firections which it gives. Old manufacturers will find if of the old modes entirely superseded. This use of the old formulas would appear as the "loam of folly" in the presence of the new ones susgested in this work one of the principal objects appears to be to avoid, as man spossible, the use of apparatus or expensive (who expensive) appears and part ding up the whole list of dirickables, from a choice pipe of totard Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and committed Dupuy, of the vintage of 1505, to a simple and converting 25 gallons of malks, other without spieces for the most satisfactory results. winegar ean be made for one dollar and sixty cents per harrel.

FUR MAKING LIQUORS, Lacour's Oils require no preparation—only pouring the Oil into the Whisky and shake well. The Liquids thus nade will have a fine natural aroma—a lull, rich, olly taste—a beautiful transparent color and a time bead. Lacour's Oils exert three distillat properties in converting common Whisky to Brandy, Gin, acc. The first property combines with and subsides in the form of Floculent particles the whole of the grain oil, (Amylie Alcohol.) The whisky is thus deprived of that peculiar irritating and burning taste, and becomes a neutral spirit; the second property consists in an oily mucilaginous taste imparted to the Liquor, which renders it neighe, and imparts an appearance of great age; the third property is exhibited in the rich, vinous, nutry door that is imparted to the Liquor, which renders distinction from the Genuine Brandsluppossible.

E. These Uils are put up in quart bottles, each bottle contains sufficient Oil for making 3M gallons of liquor. Full and comprehens, vedirections accompany the bottles. Price, 32 per bottle.

E. One bottle of these Oils (five in number) will be securely packed and shipped (with bill of lading) free of charge, to any part of the country, npon the receipt of 310, to the address of 12 LACOUR, Jal 2 d3m
